Mobile Engineer

at FAIRTIQ

FAIRTIQ is the leading software solution that disrupts public transport ticketing. We use innovative algorithms to detect user journeys using data collected by mobile sensors. Are you interested to shape the future of public transport usage by working on our product using the latest technologies? Are you as passionate about our vision and software engineering? Then we are looking for you!

In our lean development team, we move fast, iterate, deploy often and strive to deliver the simplest but useful products to our customers. It's an exciting time to join our team in a tech driven company if you want to be involved in evolving our core product and expand internationally.

As a Software Engineer you have the opportunity to work on our entire software stack and learn about state-of-the art software engineering, with a focus on mobile development. We are looking for smart engineers especially excited about mobile challenges such as location services, clean architecture, continuous delivery or implementation of great UI. You will work with top notch technologies like Android Jetpack and the latest technologies from Apple.

Experience

We consider candidates with any level of experience for this position with a preference for seniors. The mobile code is mainly in Java/Kotlin for Android and Swift for iOS.

Role & Duties

- Develop and maintain apps used actively by 40'000 users with modern architectures.
- Write maintainable, clean, simple, testable and efficient code.
- Monitor released apps.
- Participate in the agile process.
- Work with other developers and product expert to design innovative solutions.

Skills & Personality

- BSc or MSc in computer science or related field.
- Deep knowledge of mobile architectures and systems.
- Strong software design skills.
- Analytical thinking.
- Good team player in an agile team.
- Creative, self-confident, independent.
- Willing to learn and adapt.
- Proficiency in English.

We Offer

- Dynamic and fun work environment in central Bern.
- Budget and support for self-improvement.
- Fresh fruits, coffee and massage.
- Flexible working hours.
- Part-time possible.

Please apply by e-mail to an@fairtiq.com with a CV and cover letter.
